

Product Catalogue

Welcome to the second edition of the East Riding Farm Services Ltd. catalogue.

East Riding Farm Services Ltd. is a family run business established in 1997 specialising in supplying quality animal health products and sundries to the UK farming industry. Employing 12 people in the East Riding of Yorkshire, the company has grown rapidly since it's inception and has grown into one of the leading specialist pig health suppliers in the UK. ERFS now employ six qualified AMTRA staff, enabling them to sell animal medicines to you, the farmer.

If the product you require doesn't appear in the catalogue, it doesn't mean we can't supply it! The products contained within this catalogue are just a selection of the types of high quality products we are able to supply. If you require anything which doesn't appear, please contact us via any of the methods below and we will endeavour to fulfil your requirements.

We hope you find this catalogue easy to use, and please remember if you cannot find what you're looking for, call us, we'll find it for you!

1. ANTEC

ERFS are main agents for the entire range of Antec disinfectants, which offer versatile broad spectrum, multi-purpose and virucidal disinfectants for complete biosecurity control. Many of which are DEFRA approved. Available in various sizes.

2. OXSAN

Oxsan is a DEFRA approved peroxygen disinfectant effective against many types of micro-organism. Available in 5 Litres and 20 Litres.

3. BIO-OO-CYST

Bio-OO-Cyst is a DEFRA approved disinfectant which will effectively control coccidiosis and remains totally active in the presence of formaldehyde. Available in 5 Litres.

4. ERFS DISINFECTANTS

EXTREME BLACK DISINFECTANT

Extreme Black is a DEFRA Approved Virucidal Black Disinfectant available in 5 Litres and 25kg.

IODOCLEANSE

Iodocleanse is a DEFRA approved broad spectrum multi-purpose Iodine-based disinfectant available in 5 Litres and 25kg.

ERFS RED DISINFECTANT

ERFS Red is a powerful broad spectrum virucidal disinfectant based on a synergistic blend of aldehydes and quaternary ammonium compounds. Available in 25 Litres.

VIROXIDE SUPER

Viroxide Super is a DEFRA approved peroxygen-based virucidal powder disinfectant available in 5kg and 10kg.

5. ERFS PORCI-RANGE

PORCI-FLEET

Concentrated cleaner for surfaces contaminated with dirt, road soil etc. For use in conjunction with high-pressure washers. Available in 25 Litres

PORCI-FOAM

Detergent cleaner with water softeners for use in conjunction with high-pressure washing equipment. Available in 5 Litres and 25 Litres.

PORCI-SAN

Agricultural degreaser/sanitiser. Powerful bactericide plus efficient detergency power. Suitable for use in conjunction with high pressure cleaning equipment. Available in 5 and 25 Litres.

SODIUM HYPOCHLORITE 15%

Available in 25 Litres.

6. FORMALDEHYDE

Available in 25 Litres.

STALDREN®

STALDREN® is a quality Danish product, which has been thoroughly tested in an approved laboratory.

STALDREN® has a great impact on bacteria, viruses, fungi, coccidia and especially fly maggots.

STALDREN® is highly effective at controlling ammonia.

STALDREN® absorbs damp and moisture.

STALDREN® disinfects and cleans resulting in hygienic husbandry.

STALDREN® can be used for ALL domestic animals.

STALDREN® is NON-TOXIC to humans and animals.

STALDREN® effectively removes the life foundation for insect larvae resulting in reduced flies in sheds.

DIRECTIONS FOR PIG FARMERS

Use a handful (approximately 50-100g) of STALDREN® per m².

Use STALDREN® for 3 days after farrowing, thereafter, twice a week until weaning.

Use STALDREN® especially behind the sow, around feed troughs, in piglet areas and other humid areas where organisms may be multiplying.

In the nursery, use STALDREN® for 3 days in succession, thereafter, twice a week for 2-4 weeks, or through difficult periods.

For finishing sheds, use STALDREN® 1-2 times per week in order to reduce the risk of infections and to minimise the concentration of ammonia in pens.

Make sure to use STALDREN® around feeding areas, resting areas and other humid regions of the pen.

East Riding Farm Services Ltd. are the UK agents for STALDREN®.

1. BOVIVET MARKING STICKS

Livestock marker supplied in screw sticks. Available in red, blue, green, purple and black.

2. PORCIMARK SPRAY MARKERS

Quick and convenient marking of animals. Suitable for all weather conditions. Dries instantly and has long durability. Available in red, blue and green. 200ml and 400ml.

3. IMPEX MARKER SPRAYS

Fast and convenient. Instant drying and long durability. Available in red, blue and green. 500ml.

4. DABBER PIG MARKER

Formulated with tanning to increase penetration of the mark. No CFC's, no harmful gas or breathing in colour. Available in red, blue, green and orange. 100ml.

3. ERFS MARKER SPRAYS

Instant drying with long durability. Available in red, blue and green. 500ml.

1. GLEPTOSIL 20% IRON INJECTION

For the prevention and treatment of iron deficiency anaemia in piglets. Each ml of Gleptosil contains 200mg of iron. 100ml.

2. IMPOSIL 10% IRON INJECTION

For the prevention and treatment of iron deficiency anaemia. Each ml of Imposil contains 100mg of iron. 100ml.

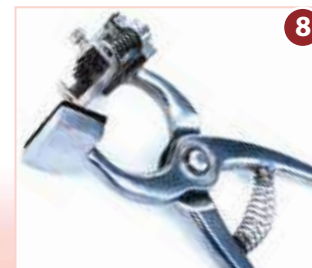

3. UNIFERON 20% IRON INJECTION

Injection of Uniferon provides high 200mg iron per ml and is an efficient method to prevent iron deficiency anaemia. 100ml.

4. FERKOFER & PLAYFEEDER

FerkoFer is an oral iron supplement in dry form for suckling piglets, the purpose of which is to stimulate their desire to eat while adding, orally, iron of high biological value at a very early stage in their lives. This is achieved by taking advantage of the piglets' desire to root. FerkoFer is easy to feed on the floor or in a special feeding trough known as the PlayFeeder close to the activity area of the piglets. FerkoFer is available in 500g or 5kg with the PlayFeeder and fittings also available.

8

ERFS CAN SUPPLY TATTOOING EQUIPMENT AND REPLACEMENT TATTOO CHARACTERS FOR RITCHEY, COX, KETCHUM, EDWARD HOLT AND FEARING. WE ALSO HAVE OUR OWN SUBSTANTIAL RANGE.

1. ERFS PIG SHOULDER SLAPPERS

High quality identification for slaughter pigs. 5, 6, and 12 space available.

2. ERFS PIG SHOULDER SLAPPER CHARACTERS

Replacement characters for ERFS Pig Shoulder Slapper.

3. KETCHUM PASTES & INKS

Permanent green and black ink in 250g and 500g and 1 Litre black slapper paste.

4. ERFS BLACK SLAPPER PASTE

Tattoo paste for use with pig shoulder slappers. Available in 600g and 1 Litre.

5. ERFS BLACK SLAPPER CONTINENTAL INK

Tattoo ink for use with ear tattoo forceps and shoulder slappers. 1 Litre.

6. ERFS RANGE OF TATTOO PASTES

Permanent green tattoo paste in 700g and 600g. Tubes of 60g and 100ml also available.

7. SLAPPER PADS

Spare inserts available.

8. ERFS EAR TATTOO FORCEPS

5/16" characters for identification of the piglet in the ear. High quality forceps and durable digits.

9

**1. VULCAN RTU FLY SPRAY**

A residual and synergistic ready-to-use solvent based spray for surface and spray treatment. For application by fine mist hand-held sprayers, machine powered or 'cold fog' spray equipment. Available in 5 Litres.

2. VULCAN DUSTING POWDER

A fast-acting, broad-spectrum multi-purpose insecticidal dust for use in domestic, commercial and industrial premises. Available in 400g and 4kg.

3. DAIRY FLY SPRAY

For use on farms to control flies, wasps, mosquitoes, midges, gnats and flying agents. Available in 4.5 Litres.

4. TURBAIR SUPER FLYDOWN

A residual and synergistic fly spray for the control of resistant houseflies in intensive pig, poultry and cattle units. Available in 5 Litres.

5. INSECT CONTROL

ERFS supply various professional insect control products for example Tyrant 50/50 SE Residual, Tyrant Super ME and Antec Durakil 1.5 SC providing broad spectrum efficacy.

6. AEROSOL FLY SPRAYS

ERFS supply various flying and crawling insect products in aerosol form combining both effective knockdown and residual activity.

7. ACTELLIC SMOKE

A broad spectrum acaricides/insecticide for use in conjunction with Actellic D in empty grain stores for the control of rust-red floor beetle, saw-toothed grain beetle, grain weevil, flour moth and grain mite. Available in 90g.

8. NEPOREX

Larvicide for surface application to manure for housefly control in intensive livestock units and outdoor manure heaps. Available in 5kg.

9. ANTEC ALPHAGEN PRILLS

For fumigation of animal housing and hatcheries, egg nest box and litter disinfection. Available in 2.25kg.

10. QUICK BAYT FLY BAIT

To control nuisance flies in and around the outside of commercial facilities like dairies, agricultural production facilities and horse stables. Available in 350g and 2kg.

11. FLY END FLY ROLL, FLY PAPER, STRING SYSTEM & REPLACEMENTS

The non-toxic way to combat flies. Sticky string systems, large rolls and papers. Refills also available. Various sizes available.

12. FLY PAPERS STV

University tested; kills over 30% more flies than other brands. Now baited with insect attractant. Clean white paper for indoor and outdoor use. Traditional cost-effective in a 4 roll pack.

13. PHOBI C SOLUBLE SACHETS

A soluble sachet formulated with cypermethrin. A very effective broad spectrum insecticide with long residual activity of up to 3 months. 25 sachets per pack.

14. PERBIO CHOC RTU INSECTICIDE

A ready-to-use flying and crawling insecticide providing up to 3 months insect control. Available in 5 Litres.

1. ANTEC TOMCAT 2 BLOX

Highly palatable rodenticide which kills rodents resistant to some other anticoagulants. Available in 4kg and 8kg.

2. CONTRAC ALL-WEATHER BLOX

A cereal based 28g block containing 0.005% bromadiolone. Available in 8kg.

3. SOLO BLOX

A 20g bait block for indoor rat and mouse control. Contains 0.005% brodifacoum which kills rodents in a single feed. Available in 4kg tubs.

4. SLAYMOR

Contains 0.005% bromadiolone. Various pack sizes in RTU bait or Bait Bags.

5. SOREXA D MOUSE BAIT

Ready to use mouse bait. Contains 0.005% difenacoum. Available in 3kg or 10kg.

6. RACO PASTE (BRODIFACOUm OR DIFENACOUm ACTIVE INGREDIENT)

A unique, attractive paste bait formulated from a mix of mulched cereals and peanut butter oils. Raco Force Paste contains 0.004% brodifacoum which kills rodents in a single feed. Only for use indoors within a tamperproof bait station. Raco Paste contains 0.005% difenacoum and can be used for rodents indoors and outdoors. Available in 5kg.

7. RODEX WHOLE WHEAT

Contains 50 ppm bromadiolone. Available in 3kg, 10kg and 25kg.

8. RACO WHOLE GRAIN (BRODIFACOUm OR DIFENACOUm ACTIVE INGREDIENT)

A highly effective and very palatable whole wheat bait for use against rats or mice. Contains 0.005% difenacoum or bromadiolone. Available in 5kg, 10kg and 20kg.

9. RACO CUT WHEAT

A highly effective and very palatable difenacoum cut wheat bait. Contains 0.005% difenacoum. Available in 5kg, 10kg and 20kg.

10. RACO PASTE TUBES

310g tubes available with either difenacoum or brodifacoum.

11. LIQUID BAITS

Drat Concentrate available for use in the preparation of baits to control rats in 500ml and 5 Litres. Deadline Liquid Concentrate rodenticide for professional use against rats and mice, indoors and outdoors, in 150ml.

12. RACUMIN TRACKING POWDER

An anti-coagulant poison for indoor use only.

13. BAIT BOXES

Various bait boxes available from simple cardboard through to HQ tamperproof bait stations.

14. NOOSKI

The Nooski Trap system is one of the most innovative trap systems, using strangulation rather than poison to kill rodents quickly and humanely.

15. EZ-BAITER

A double hopper style bait station for rats and mice with a clear tube to enable a quick check for bait take activity. Will accommodate loose bait or blocks.

16. CAGES

Various traps and cages available for live trapping of rodents and other vermin.

17. TRAPS

Various traps available including self-set traps, mouse traps, rat traps and pre-baited traps.

18. TIP TRAP MOUSE TRAP

Carries on killing day after day with no re-setting. An ingenious yet simple way of getting rid of mice.

1. DECTOMAX PIG INJECTION

Active ingredient: Doramectin.

For the treatment and control of gastrointestinal roundworms, lungworms, kidney worms and sucking lice in pigs. Available in 200ml and 500ml

2. FLUBENOL INDIVIDUAL TREATMENT PACK

Active ingredient: Flubendazole.

A broad spectrum anthelmintic for oral administration, active against mature and immature stages of the nematodes of the gastro intestinal and respiratory tract of the pig. Available in a 600g pack (treats on average 40 sows).

3. FLUBENOL PREMIX

Active ingredient: Flubendazole.

A broad spectrum anthelmintic for oral administration, active against mature and immature stages of the nematodes of the gastro-intestinal and respiratory tract of the pig. 2kg bags. (N.B. Can only be supplied to customers who are registered on the VMD Register of Approved Feed Businesses).

4. NORAMECTIN INJECTION

Active ingredient: Ivermectin

For the treatment and control of internal and external parasites of beef and non-lactating dairy cattle, sheep and pigs. Available in 50ml, 300ml and 750ml.

5. PANACUR 1.5% PELLETS

Active ingredient: Fenbendazole.

A ready to administer anthelmintic for cattle and pigs. Available in 5kg.

6. QUALIMEC INJECTION

Active ingredient: Ivermectin.

For the effective treatment and control of internal and external parasites of cattle, sheep and pigs. 500ml.

7. IVOMEC INJECTION FOR PIGS

Active ingredient: Ivermectin.

For the treatment and control of internal and external parasites of pigs. Available in 200ml and 500ml

8. SOLUBENOL

Active ingredient: Flubendazole.

Oral emulsion for administration in drinking water for improved worming flexibility. 500ml.

Occasionally it is necessary to replace a branded product with a generic product with the same active ingredient and quality.

1. DISPOSABLE NEEDLES (POLY HUB)

High quality disposable needles with a plastic luer-lock fitting hub and point protector. Individually packed needles in sterile blister packs.

2. DISPOSABLE NEEDLES (ALUMINIUM HUB)

High quality disposable needles with aluminium hubs. Available in 16G x 1" and 16G x 1½" (boxes of 100).

3. RE-USEABLE NEEDLES

Very sharp to make vaccination easier in a range of sizes suitable for most requirements. Set in robust and sterilisable stainless steel hubs and packed in boxes of 12 needles.

4. MONOJECT NEEDLES

A very popular quality needle. Available with aluminium or polyhubs.

5. SHARP SAFE CONTAINERS

Purpose designed plastic sharps containers. Available in 7 and 24 Litres.

GUIDE TO NEEDLE SIZES

21G x 1½"	Young piglets
20G x 5/8"	Iron injections/young piglets
18G x ½"	Small animals
18G x ¾"	Small animals
18G x 1"	Vitamin injections/small animals
17G x 1½"	Small animals
16G x 1"	Small pigs
16G x 1½"	Large pigs

1. MONOJECT DISPOSABLE SYRINGES

High quality Monoject syringes. Luer-lock fitting. Available in 1ml, 2ml, 5ml, 20ml, 30ml and 50ml. Sold individually or in various pack sizes.

2. RE-USEABLE SYRINGES

Various re-useable syringes. Sterilisable up to 130°C with exchangeable luer-lock adaptor. Available in 5ml, 10ml, 20ml, 30ml and 50ml.

3. DISPOSABLE SYRINGES

Two or three component, sterile, luer-lock syringes. Available in 2ml, 5ml, 10ml and 20ml.

4. VACCINATORS

Various quality vaccinators available in 1ml, 2ml, 5ml and 10ml with Bottle Mount or Draw-off Tube.

5. ROUX REVOLVER SYRINGE EXTENSION

Roux Revolver Syringe with extension.

6. PHILLIPS AUTO VACCINATOR

A range of precision vaccinators giving highly accurate doses. Auto vaccinators are constructed from high quality metal. Options of bottle attachment or draw off tube assembly. Available in 1ml, 2ml and 5ml.

7. HAUPTNER INJECTOR

Easy handling. Absolute exact dosing. All parts are interchangeable. With screw-on or luer-lock mount. Available in 30ml and 50ml.

8. ROUX REVOLVER SYRINGE

Made of polished and chrome-plated brass. Carbide piston-rod, permanent graduation on metal frame. Dosage by dosage setting wheel. Ideally suited for large vaccinating jobs. Available with threaded or luer-lock fitting. 10ml, 30ml and 50ml sizes available.

SPARES KITS ALSO AVAILABLE.

1. PORCILIS PORCOL-5

For the prevention of neonatal E.Coli enterotoxigenesis in piglets. Progeny of vaccinated sows and gilts derive a passive immunity via the colostrum. Available in 20ml and 50ml bottles.

2. PORCILIS ERY

For the active immunisation of sows, gilts and boars as an aid in the control of swine erysipelas. Available in 50ml and 100ml bottles.

3. PORCILIS AR-T

For vaccination of sows and gilts in order to protect the progeny, by maternally derived antibodies transferred via the colostrum, against atrophic rhinitis infection. Available in 20ml and 50ml bottles.

4. GLETVAX 6

For the administration to pregnant gilts and sows to stimulate the production of antibodies which are then passed in the colostrum and milk to aid in the protection of the piglets against E.Coli diarrhoea and CI perfringens types B, C and D during the suckling period. Available in 50ml.

5. ERYSORB PLUS

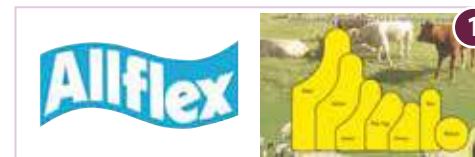

For the active immunisation of healthy pigs against swine erysipelas. Available in 50ml and 100ml bottles.

ARD TAGS ARE HIGHLY FLEXIBLE AND AVAILABLE IN RED, YELLOW, BLUE, GREEN, WHITE, AND ORANGE. THE MALE TAGS HAVE AN ULTRA SHARP METAL POINT. ANY TAG CAN BE QUALITY PRINTED FOR EFFECTIVE MANAGEMENT CONTROL.

1. Female Large
2. Male Large
3. Female and Male Medium
4. Female and Male Small
5. Female and Male Button
6. Tip Tags

1. ALLFLEX

Allflex have an extensive range of tags for both official and management use including sheep/lamb tags, cattle tags and pig management tags in various colours and sizes.

2. RITCHEY

Ritchey supply a high quality range of tags for management and official use for sheep, cattle and pigs in various colours and sizes including brass tags.

3. DALTON ID SYSTEMS

Dalton can supply an extensive range of livestock identification products for cattle, sheep and pigs.

4. TAG ACCESSORIES

ERFS supply tag applicators and spare pins for all the tag products we stock. Tag pens with thick or thin nibs are also available.

KRUTECH Classic iNSight Ultrasound Scanner

The unit offers an easy and quick answer to the question as to whether a sow is in gestation or not.

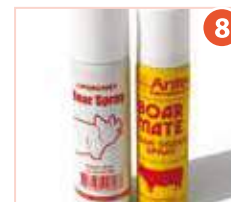

With KRUTECH Classic iNSight you get an instant look inside the pelvic region of the sow

- Only one control required on the unit
- Specially designed for pig production
- Interpretation of the images is easy & quick to learn
- Early detection of gestation important to save time and money
- Gestation can be detected as early as 19 days post-insemination
- Re-insemination can be done without losing an extra cycle
- Prompt results with pig specific knowledge

KRUUSE

1. CATHETERS

ERFS have an extensive choice of catheters available for sows and gilts in a range of sizes, colours and styles including reusable, with or without bottle attachment, individually wrapped or multi-packed and lubricated.

2. CERVI-SLIP INTRA-UTERINE INSEMINATION CATHETER

This unique Hydrofil coated inner catheter will, when inserted, become extremely greasy and smooth, so the passing of the cervix is easy.

3. LUBRICANT

Various lubricants available including clear gels, powdered lubricants, catheter gels and KY Jelly.

4. SEMEN STORAGE BOX

Heats or cools according to ambient temperature. 12V DC connection for mobile use.

5. ERFS ULTRASOUND PREGNANCY TESTERS

These testing units are available with an external probe connected by means of a spiral cord or with an integrated ultrasonic transmitter. ERFS are also agents for other manufacturers.

6. SCANNER GELS

For use with ultrasonic scanners – 500ml and 5 Litres available.

7. PURIFIED & DE-IONISED WATER

25 Litre drums for semen dilution.

8. BOAR PHEROMONES

Porci-Vet Boar Spray 110ml and Antec Boar Mate 80g boar odour sprays for oestrus detection in sows and gilts.

9. DILUENT AND BOTTLES

Various diluents and semen bottles/tubes available.

1. MINERAL BLOCKS

ERFS Herbal Blocks for Pigs are a mineralised herbal salt block specifically formulated with ingredients shown to have benefits in reducing tail biting and other behaviour vices. ERFS Salt Blocks are a valuable source of essential trace elements for all livestock and also provide Vitamin D3 which is vital for maximum production. Both supplied in 2 x 10kg packs.

2. ERFS FREE ACCESS MINERALS

A wide range of bagged minerals including All Purpose, Cattle Hi-Magnesium, Sheep Hi-Magnesium and General Purpose.

3. PORCI-BOOST & PORCI-FLORE

Porci-Boost is a colostrum rich nutritional supplement in the form of an oral paste. Porci-Flore is a gut conditioner for the management of the digestive tract in piglets. Both available in 125 dose tubes.

4. TRACE ELEMENTS & HYDRATED LIME

Various trace elements including: Calcined Magnacite, Copper Sulphate, Sulphur, and Magnesium and Iron Sulphates. Hydrated Lime also available in 25kg bags.

5. ERFS ELECTROLYTES

A nutritional supplement for use during periods of stress and scouring, particularly after weaning. Very concentrated 60g : 5 Litres. Available in 1.2kg, 4.5kg and 10kg buckets.

6. ERFS SOLUBLE VITAMINS E & C

A nutritional supplement designed to assist in the management of vitamin E & C deficiencies in growing and fattening pigs.

7. MINERAL BUCKETS

A wide range of minerals available in bucket form including: Hi-Mag. (both cattle & sheep), Hi-Phos. (cattle), General Purpose (cattle & sheep), Dry Cow and Molassed Minerals.

8. BIOCANDO & SPARKODAN

SparkoDan is a very effective starter for newborn piglets, which need an extra "kick" here and now in order to start suckling at the sow. 250ml. Biocando is a nutritional supplement for use in the first 10-15 days of life.

9. VOLAC FARAMATE

Sow milk substitute based on concentrated milk protein. 10kg bags.

1/2" bite drinker

3/4" adjustable bite drinker

3/4" adjustable bite drinker with 1/2" thread

1/2" stainless steel bite drinker with brass thread. Adjustable

3/4" stainless steel bite drinker with brass thread. Adjustable

3/4" stainless steel bite drinker with brass thread with 1/2" fitting. Adjustable

3/8" adjustable bite drinker with 1/2" thread

1/2" wet feed drinker long stem

1/2" wet feed drinker

3/8" stainless steel bite drinker with brass thread 1/2" fitting

1/2", 3/4" or 3/8" stainless steel bite drinker with brass thread. High or low pressure

1/2" wet feed drinker

1/2" wet feed drinker short stem

1/2" brass slit spray drinker

1/2" stainless steel spray drinker. High or low pressure

1/2" brass spray drinker. High or low pressure

1/2", 3/4" or 3/8" bite drinker, high or low pressure

1/2", 1/4" or 3/8" nipple drinker with ball bearing

1/2" stainless steel slit spray drinker

1/2" stainless steel spray drinker

1. WALL BRACKETS & PIPES

Varying sizes of height adjustable wall brackets single or twin with 30° angle. Pipes available in various lengths with male/male or male/female threads. Stainless steel or galvanised.

2. PIPE ACCESSORIES

Connectors, elbows, couples, reducers etc.

3. DRINKER BRACKETS

Drinker brackets with angles of 15°, 30° or 45°. Stainless steel pipe brackets for ½", ¾" and 1" pipes.

4. FEEDING PANS

Stainless Steel feeding pans available in 2 or 3 litres. Porci-Feeder available in 5kg and 10kg piglet sizes made from high quality polypropylene. Complete with J-hook for standard slat fixing.

5. DRINKING BOWLS

Various drinking bowls to suit specific needs including enamelled, plastic, stainless steel and galvanised.

6. BOWL DRINKERS

Quality stainless steel drinker bowls with ½" threads. Available in a variety of sizes.

1. COMFORT FLOORING

Resistant to acids and pressure washers. Bacteria resistant and protein free. Powder in 25kg bags and Acrylic Emulsion in 5 Litres.

2. POLY SLATS

Full range of poly slats available of varying widths, depths and lengths.

3. GALVANISED SLATS

3ft, 4ft, 5ft, 8ft and 1 metre galvanised slats in stock. Alternative widths and lengths also supplied.

4. FEEDER TROUGHS

Approximately 16 Litre capacity with or without bite strip.

5. FEEDER TROUGHS

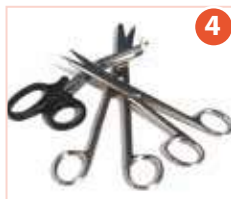

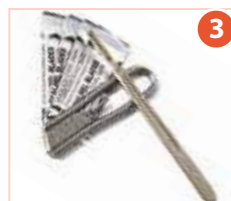

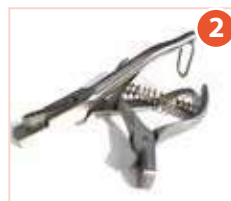

Wide range of Weaner, Grower, Finisher, Sow, and Wet & Dry feeders available with various feeder spaces, single or double sided. Channel Drinkers also available.

6. POLY-CUBE DRINKERS

Popular drinker/feeder for young pigs. Available in Black or Clear.

7. PLAY FEEDER

Ideal for administering Ferkofer Iron or creep feed to piglets. Fittings included.

**1. TEETH CUTTERS**

High quality teeth cutters including Stainless Steel Medium Jaw. Stainless Steel Long Jaw, Chrome Plated Short Jaw, ERFS Narrow Nipper and ERFS Black Nipper.

2. EAR NOTCHERS

High quality ear notchers with a variety of shapes and sizes. Stainless steel or aluminium.

3. SCALPELS & BLADES

Complete range of scalpels. Replacement blades and folding handles available.

4. SCISSORS

Own brand surgical quality scissors from 4 inches to 14 inches with sharp point or blunt ends.

5. PIG NOSE RINGS

High quality range of pig nose rings including stainless steel, chromed steel, nickel plated and galvanised. A variety of sizes and applicators are available.

6. NAVEL CLAMPS

Snap on at birth to avoid deadly scours. Fully re-useable after sterilisation. Two sizes.

7. ANTI-BITE PREPARATIONS

Various preparations for use in curbing tail biting, ear and flank chewing.

8. SUTURE EQUIPMENT

Stainless steel half curved needles in popular sizes. Nylon suture tape 6mm and 3mm and Catgut which is biologically absorbent chromic or standard.

9. ANTISEPTIC SPRAYS

Various Antiseptic Aerosol Sprays. Specially formulated for use in a wide variety of topical applications.

10. LOCAL ANAESTHETIC INJECTION

For minor surgical procedures including dehorning and debudding in cattle. 100ml.

11. LUBRICANT

Various lubricants available including clear gels, powdered lubricants, catheter gels and KY Jelly.

12. IODINE SOLUTIONS

Provided as concentrated (10%) or weak (2.5%) solutions. Available in 2 Litres.

13. WOUND SPRAYS

Sterile wound plaster sprays. Provides a clear, water-resistant protective film. 200ml cans.

14. ELECTRIC TOOTH GRINDER

For quick and painless grinding of newborn piglets' teeth to prevent damage to the teats. Complete kits, spare grinding wheels and aluminium safety covers available.

15. PIGLET HOBBLER

High quality Velcro hobbles for piglets. Used to strengthen weak back leg muscles.

16. VETERINARY THERMOMETERS

Digital and clinical thermometers available in either Celsius or Fahrenheit.

17. SURGICAL SPIRIT
